DESCRIPTION

The Lofton Collection showcases mid-century sophistication with its stepped, tiered design and distinctive Triedri glass rods. Created using a technique that involves making triangular cuts on the glass, the Triedri method results in a hand cut crystal-like appearance that enhances sparkle and depth. The glass gracefully cascades downward and inward, framed in polished nickel or aged brass. This dynamic design ensures that the Lofton Collection remains a luxurious and visually striking centerpiece, reflecting light in captivating ways from any angle.
